AUDITORS' REPORT

We hereby certify that we have examined the foregoing accounts and find them properly vouched and correctly cast.

AUSTIN L. CALEF,
LEVI H. BUZZELL,

Auditors.

Barrington, N. H., February 4, 1932.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Barrington:

In my last report I recommended unilateral lighting at Waldron Hill. This has been done, and the most approved type of window shades installed. Painting the exterior will still further improve the appearance of this building, which is located in a conspicuous position near the main highway. Our playground apparatus is still a much needed feature. Possibly some interested individual or organization can help to make possible a beginning along this line. The joining of the shed to the main structure at Pond Hill is a project worthy of serious consideration in the near future.

Changes in our working staff include the coming of Miss Margaret McDonald, R. N., who succeeded Miss Patten as school nurse. We now have one nurse for the whole supervisory union, which is a great advantage. Miss Ethel B. Jordan of Dover, a normal graduate with teaching experience, has come to Oak Hill, succeeding Mrs. Pearl Hardy Hale, who recently resigned after satisfactory teaching services in two of our schools. Following is a list of schools with their teachers and enrollment:

Green Hill, Mrs. Mae E. Scruton,	9
Oak Hill, Miss Ethel B. Jordan,	21
Pond Hill, Mrs. Merle L. Jewell,	8
Waldron Hill, Mrs. Edith C. Blair,	28
Winkley, Miss Alice L. Davis,	25

In times like the present, our schools have an unusual responsibility.

1. To practice economy in school outlay for materials and services. This is a practical thrift in which even the youngest pupil may join.

2. To preserve the health and happiness of the children free from physical impairment and mental gloom which might result from the pinch of depression. The teacher can do this by making the school a cheerful place, while the work of the nurse is more indispensable than ever in detecting need and setting remedial forces into operation.

3. To prolong the years which boys and girls spend in school, for their own sakes and to relieve the labor surplus.

4. To emphasize the ideals of creative work and craftsmanship in the fine arts and practical arts. We may have an over-production of machine-made goods, but we can never satisfy the demand for the creative output of real artists and handicraftsmen. Any type of education which gives children a taste of the finer things of life will help enormously in the future to create a public demand not only for the bare necessities of life which may be turned out in a flood by mass production but also for those human needs of our American standard of living which will keep our population fully occupied in producing.

Respectfully submitted,

CHESTER W. DOE,

Superintendent of Schools.

HONOR ROLL OF PERFECT ATTENDANCE

For One Year—Lucille Boody, Ralph Boody.

FINANCIAL REPORT OF BARRINGTON SCHOOL DISTRICT
